

DEZIRAE DANIELS

I am Dezirae Daniels and have held my current position teaching sixth grade at The Academy for Business and Technology in a self-contained classroom for the past six years. I have held many different roles within the school. I currently am a part of the Leadership Team, Child Study Team, The RTI Team, and the School Improvement team. I have helped to create and build our PBS program and maintain the database for behavior referrals in the middle school. I was also an active member in the accreditation process for our school. I wouldn't be able to do this if I didn't receive my education first. I hold a bachelors degree from Eastern Michigan University in Speech and Language Pathology and two masters degree's from the University of Phoenix in General Education and Special Education. I am looking to go back to school this fall to obtain my Education Specialist degree from Oakland University. On a personal note, I love to spend time with my family and friends, going up north to my parent's cottage, scrap booking, and traveling. I love music and listen to all the different genres. I currently have two fur-kids. Owen is a black lab - Springer Spaniel, and Mya is a Black Lab - Border Collie. They are 7 years apart, but they get along great. They love to go for car rides and out for walks.

They keep me busy when I get home from school, that's for sure! I am definitely looking forward to the upcoming school year.
