

My name is **Ioana Timbuc** and I teach middle school math and science. I enjoy teaching at the Academy of Business and Technology.

I will be starting my fourth year of teaching in the fall. I graduated from the University of Michigan with a Bachelor of Science in Education. I am currently attending Wayne State University to complete my Master's degree in Instructional Technology. I plan to graduate in the Winter of 2013. I hope to expand my knowledge of instructional technology and its use inside a classroom.

In my spare time, I like to spend time with family and friends, travel, attend baseball games, and try new restaurants. Hobbies are exercising, swimming, bike riding, and doing homework. Some places that I would love to travel to are Europe, Africa, Japan, and Greece. I have been married to the most wonderful man for six years and we have 2 wonderful children. I love spending any extra time I have with my family.

I enjoy teaching because I want to share my knowledge and desire to learn with my students. All students are capable of learning but what is important is that I find a way to reach all students based on their learning style. I strive to create long lasting relationships with my students!
